

Mechanical Engineering

Faculty Position Announcement

The Mechanical Engineering Department at Bilkent University is in the process of hiring additional faculty members and seeks candidates for multiple positions to start Spring 2013 and later. Appointments may be made at Assistant Professor, as well as at Associate Professor or Full Professor rank for candidates with commensurate experiences and accomplishments.

Development of first-class research and education laboratories are underway to enable the new faculty to immediately start and continue their research without interruption. Faculty duties include teaching at the graduate and undergraduate levels, research, and supervision of theses. The department will consider candidates with backgrounds and interests in all areas mechanical engineering.

Nominations and applications should describe the candidate's professional interests and goals in both teaching and research. Each application should include a resume and the names and addresses of three or more individuals who will provide letters of recommendation.

Please send all nominations and applications to:

Professor A. Akay

Faculty of Engineering

Bilkent University

Bilkent, Ankara 06800, Turkey
